

# Matrix-Liner

Your partner in automation

// in the food industry //

The Matrix-Liner positions packages in one line after the thermo-forming machine.

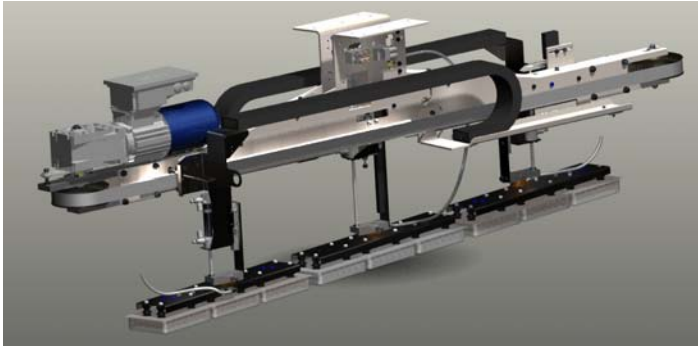

## Features:

- >> Max 12 cycles per minute
- >> Possible configurations: 2 to 5 rows
- >> Short change-over time
- >> The Matrix-Liner is equipped with a fast gripper changing device.

## Advantages:

- >> Increase production output
- >> Decrease line stops
- >> Failproof transition from multiple lines to one line at high speeds, also with light packages.
