

Press Release

## **Asia's future energy needs on the agenda at Tank Storage Asia 2018:**

*Visitor registration now open for event on 26 & 27 September*

**London (28 June)** - South East Asia's bulk liquid storage market is expected to expand at a CAGR of 8.22% until 2024 as the region continues to be a key market despite previously turbulent market conditions in the oil and gas industry globally. Singapore in particular has seen record bunker fuel sales of 50.6 million tons in the last year and remains Asia's top petrochemical hub.

Singapore will host industry leaders at Tank Storage Asia, as the exhibition and conference returns to the Marina Bay Sands on the 26th & 27th September, following last year's successful event.

Tank Storage Asia is the only dedicated exhibition and conference in the region for the bulk liquid storage industry. It brings together the entire supply chain, from terminal suppliers and manufacturers through to tank storage operators, terminal owners, traders and analysts.

The event is supported and attended by major terminals across the region, including Stolthaven Terminals, Vopak, Oiltanking, VTTI and Horizon Terminals. Also supporting the event is the Singapore Manufacturing Federation, the Independent Power Producers' Forum, RVB Tank Storage Solutions and the Corrosion Association Singapore.

**Mark Lim, Assistant Commercial Manager at Stolthaven Singapore, comments:** "The show is an excellent platform for networking, getting to know new suppliers and learning about updates within the industry. We're very much looking forward to attending this year and supporting the event once again."

Attendees will have the opportunity to visit the exhibition where more than 80 local and international suppliers will showcase the latest equipment and state-of-the-art technologies. Exhibitors will include CTS Far East, Endress + Hauser, Kanon Loading Equipment, Krohne, OPW Engineered Systems, Concrete Canvas, BIOex, Larco, Protego, Emerson Automation Solutions and Emco Wheaton to name just a few. These span the entire supply chain, from tank design, construction and maintenance, through to innovations in metering and measuring, pumps and valves, automation and loading equipment, and inspection and certification services.

The exhibition will also include a dedicated Singapore Pavilion and Technology Start-Up Zone where local companies will be exhibiting, with financial backing from the Singapore Manufacturing Federation and iMAP funding initiative.

To register to attend, view the exhibitor line up and sign up for show news and information, please visit the event [www.tankstorageasia.com](http://www.tankstorageasia.com)

## About Easyfairs

Easyfairs enables communities to “visit the future” at must-attend events that anticipate their needs and present solutions in the ideal format.

The group currently organises 218 events in 17 countries (Algeria, Belgium, China, Denmark, Emirates, Finland, France, Germany, the Netherlands, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom and the United States). Easyfairs also manages 10 events venues in Belgium, the Netherlands and Sweden (Antwerp, Ghent, Mechelen-Brussels North, Namur, Gorinchem, Hardenberg, Venray, Gothenburg, Malmö and Stockholm).

The group employs more than 750 people and generated revenues exceeding €160 million for its financial year 2016-2017.

Easyfairs strives to be the most adaptable, agile and effective player in the events industry by employing committed individuals, deploying the best marketing and technology tools and developing strong brands. Visit the future with Easyfairs.
