

Le Scan Buddy in actual practice

A satisfied user speaks out:

"Each day, I scan between
10.000 and 15.000 CC dollies.
Thanks to the Aucxis Scan
Buddy, I can work much faster,
more accurately and more
pleasantly than before.
It's just so easy!"

Scan Buddy

Mobile RFID scanner to read stacks of Container Centralen trolley decks

Specifications

- ▷ Mobile system with soft swivel wheels
- ▷ Wireless, integrated battery unit
- ▷ Autonomy: 10 hours (easy rechargeable via power network)
- ▷ Solid industrial construction
- ▷ 10 individual RFID antennas (optionally up till 15 high)
- ▷ 1 loose rod antenna for tags that can't be reached easily
- ▷ Panel PC (Windows based, touchscreen, Wifi, ...)
- ▷ Positioning guides
- ▷ Intelligent and clear graphic on screen reproduction
- ▷ Validation method supplied by CC

Trumps compared to existing scanners

- ▷ Ergonomics: easy rolling dolly
- ▷ Scans and validates up to 10 stacked trolley decks at a time
- ▷ (tests reveal that work is done 3 times faster than with existing scanners)
- ▷ Clear and graphic distinction between the different trolley decks
- ▷ No risks of reading adjoining trolley decks / tags
- ▷ New detection concept: no problems with dirty tags (water, dust, snow,...).

Options

- ▷ Additional peripherals: barcode scanner, printer, electronic signature, ...
- ▷ Software integration with third parties through open interfaces (txt, xml, web, Db, ...).
